RE: Final Approval
Vernal Phosphate Operations
ACT/047/008
Uintah County, Utah

Dear Mr. Fyock:

The Board of Oil, Gas and Mining, at its January 26, 1984 meeting, approved the form and amount of surety for Chevron Resources Company's Vernal Phosphate Operations as a \$1,000,000 cash bond to be held by the Division of Oil, Gas and Mining and inflated on an annual basis.

This, coupled with Chevron's satisfaction of all conditions attached to the Division's December 9, 1983 conditional tentative approval letter fulfills all requirements of the Utah Mined Land Reclamation Act of 1975 (Title 40-8). Therefore, the Division hereby issues final approval to Chevron Resources Company for its Vernal Phosphate Operations as outlined in the Mining and Reclamation Plan and the Division's conditional approval letter.

Please be reminded of Rule M-8(b) requiring Chevron to furnish the Division with an Annual Operations and Progress Report (Form MR-3), a copy of which is enclosed.

Thank you for your efforts in helping us to finalize this permit. We are looking forward to working with you in the future. If you have any questions, please don't hesitate to call me or Tom Portle.

Sincerely,

James W. Smith, Jr.
Coordinator of Mined
Land Development
